INTRODUCTION

The following narrative and accompanying tables provide information on the characteristics of the Youth Authority's institution, camp and parole populations as of June 30 of each year, 1994 through 2003. The statistics reflect both CYA cases directly committed to the Youth Authority and Department of Corrections (CDC) cases housed in Youth Authority facilities pursuant to Section 1731.5(c) of the Welfare and Institutions Code. Under this section, which became effective January 1984, youth committed to the Department of Corrections can be ordered by the sentencing courts to be placed in Youth Authority facilities to serve at least part of their sentences.

The characteristics compared include sex, committing court, county of commitment, admission status, ethnicity, average age, and the following categories of primary commitment offense:

<u>Violent Offenses:</u>	Homicide, robbery, all types of assaults, forcible rape, and kidnapping.
<u>Property Offenses:</u>	Burglary, theft (including auto), forgery and check offenses, and arson.
<u>Narcotic and Drug Offenses:</u>	All offenses related to narcotics and dangerous drugs.
<u>Other Offenses:</u>	All offenses not specified above.

Tables are provided for the total population in the camps and for each of the ten regular institutions. Reception Center-Clinics are not identified separately, but are included in the overall totals, Tables 1 through 3.

Please note: Table 7, Karl Holton Youth Correctional Drug and Alcohol Treatment Facility moved wards out gradually until the last wards left on September 25, 2003. This explains the drastic drop in their population.

Also, Table 7, El Paso De Robles Youth Correctional Facility averages 40 contract cases from Monterey that are not included in this report.

SUMMARY

POPULATION

The institution population of 5,024 in 2003 reflects a *decrease* of 15 percent from the 2002 population of 5,954. This continues the downward trend beginning in 1997. Since the high of 10,122 in 1996, the institution population has decreased 50 percent.

The parole population of 4,169 in 2003 is 2 percent lower than in 2002, and 35 percent lower than its high in 1997.

SEX

Over the ten-year period, female offenders have been 3 to 5 percent of the institution population. Females have been 4 to 6 percent of the parole population until 2003 when the population increased to 7 percent.

COURT OF COMMITMENT

Since 1994, the percentage of juvenile court commitments in the Youth Authority population has *increased* considerably -- from 78 percent in 1994 to 97 percent in 2003.

Similarly, the percentage of juvenile court commitments on parole has steadily *increased* from 79 percent in 1994 to almost 96 percent in 2003.

COUNTY OF COMMITMENT

The largest proportion of the Youth Authority's institution population has consistently been from Southern California (especially Los Angeles County), although the proportion has decreased from 58 percent in 1994 to 51 percent in 2003. Los Angeles County commitments have decreased from 39 percent to 26 percent during that same time period.

The difference between the major sections of the State has been less marked for the parole population. In 2003, the comparison is 53 percent for Southern California, and 47 percent for Northern California.

PRIMARY COMMITMENT OFFENSE

The proportion of offenders institutionalized **primarily** for homicide, robbery, and other violent offenses steadily decreased from a high of 65 percent in 1994 and 1995 to 58 percent by 2003. The proportion of offenders on parole for violent offenses has steadily *increased* from 55 percent in 1994 to 70 percent in 2002. In 2003, the percentage decreased slightly to 69 percent.

Those offenders institutionalized **primarily** for property offenses (burglary, theft, and arson) gradually increased from 23 percent in 1994 to 25 percent in 2002. In 2003, the percentage was 24. The proportion of property offenders on parole has *decreased* from 30 to 21 percent.

The proportion of the institution population committed **primarily** for narcotic and drug offenses *decreased* from 7 percent in 1994 to 4 percent in 2003. Those on parole who had been committed **primarily** for narcotic and drug offenses *decreased* from 10 percent in 1994 to 3 percent in 2002. It remains at 3 percent for 2003.

ADMISSION STATUS

The proportion of first commitments in the institution population has fluctuated between 82 and 84 percent.

The proportion of first-time parolees in the parole population was 79 percent in 1994, and is currently 73 percent.

ETHNIC GROUP

The percentage of Whites in the institutions in 2003 is back up to 16 percent after dipping as low as 14 percent in the middle of the decade. The percentage of African Americans in the institutions dropped, from 32 percent in 1994 to a low of 28 percent in 1999. In 2003, the percentage was 30 percent. There has been more of an upward trend in the proportion of Hispanics, from 44 percent in 1994 to a high of 48 percent in 2002 and 2003. The percentage of Asians has decreased from 5 percent in 1994 to 3 percent in 2003.

The proportion of Whites in the parole population dropped from 18 percent in 1994 to 14 percent in 2003, and African Americans from 33 percent in 1994 to 25 percent in 2003. The proportion of Hispanics *increased* from 41 percent in 1994 to 50 percent in 2003. The Asian parole population *increased* from 5 percent in 1994 to 7 percent in 2003.

AVERAGE AGE

Over the past ten years, 19 years has consistently been the average age of the institution population. The average age of the parole population has been approximately 21 years during the same time period. Although, both have been incrementally increasing.
